Tardis Box blah

Scroll through the Tardis-box inventory list to find items. Can also sort by clicking names of columns (need better words, I'm just filling up space).

Double click on item to view additional information

Check out/in by entering item # into box and click ok.

This tool does not have sort arrows - that will go on the column names at the top of the table

Borrow Item #

Return Item #

OK

Item #	Title	Description
DVD01	Example Title	Example description

## Admin Page

### Tardis-box Admin Page

View Items

This button goes to the view items page allowing the admin to scroll through and sort the item database

Add Items

Allows an admin to add one or more item to the database.

Delete Items

Deleting an item will remove it from the inventory database, the waitlist, and update a user account if the item shows as being checked out.

Delete Account

This action will delete an account from the system. It will release any item currently loaned to the account and clear any waitlisted items. NOTE: If the item is missing or damaged, it needs to be removed from the database using the Delete Items function.

## Add Media

### Tardis-box Admin: Add Media

Media entry form to be inserted here
