Team: Paul Boschert, Teresa Creech

Title: Tardis-box

## **Project Summary:**

Tardis-box is a no-charge media distribution system. It will allow a guest to view and sort the available media and, if desired, create a member account using a valid email address. The member may delete this account, if all borrowed media has been checked in.

A member may view and sort the media with the option to check-out an item. If the requested media is unavailable, the request can be waitlisted to be checked out to the user as soon as it is available. The member may check-in media.

An administrator may view and sort the media. Only an admin can add and delete media. An administrator can delete a member account, if necessary and can handle overdue items.

#### **Project Requirements:**

Business Requirements								
ID	Requirement	Topic Area	User	Priority				
BR-01	Member usernames must be a valid e-mail address.	Accounts	Member	Medium				
BR-02	Only admin can add/delete media items.	Database	Admin	Medium				
BR-03	Guests can view available media without having to create an account or login.	Database	Guest	Critical				

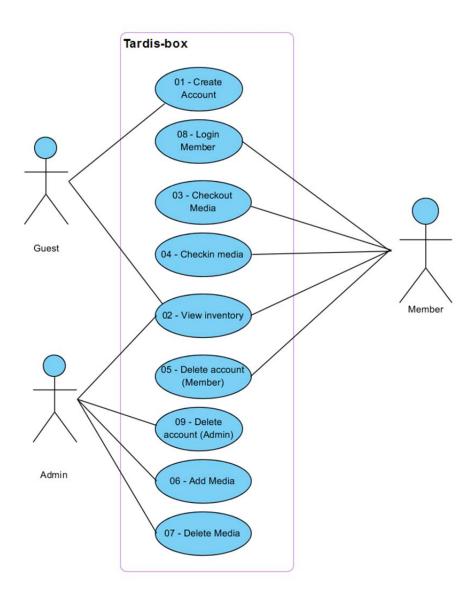

User Requirements								
ID	Requirement	Topic Area	User	Priority				
UR-01	Guest can request and create their own account	Accounts	Guest	Critical				
(Help Page)								

UR-02	Any user can view media list	Database	All	Critical
UR-03	A member can remove their account if certain conditions are met (e.g. no overdue items).	Accounts	Member	Medium
UR-04	A member can make a request to checkout media.	Database	Member	Critical
UR-05	A member can check-in media.	Database	Member	Critical
UR-06	An admin can delete an account	Accounts	Admin	Medium
UR-07	An admin can handle overdue items	Accounts	Admin	Medium

Function	Functional Requirements								
ID	Requirement	Topic Area	User	Priority					
FR-01	There must be a display of the media that shows the title and an associated picture.	Database	All	Critical					
FR-02	There must be a way to view details of a particular media item (besides just a picture and title) that shows a short description and possibly other details e.g. IMDB data).	Database	All	Medium					
FR-03	There must be a way to sort the media for display to the user.	Database	All	Medium					
FR-04	There must be a way to put media on a waitlist, if necessary.	Accounts	Admin	Medium					
FR-05	There must be a way to remove item from waitlist (and check it out to a requestor)		Admin	Medium					

Non-Functional Requirements						
ID	Requirement	Topic Area	User	Priority		
NR-01	Time to cycle from one page media titles to the next must be reasonable.	User Interface	All	Medium		
NR-02	Member credentials must be encrypted.	Accounts	Member	Low		
NR-03	Web pages need to be clearly worded and easy to navigate.	User Interface	All	Medium		

## **Users and Tasks:**

Use Case ID:	UC-01				
Use Case Name:	Create	Create Account			
Description:	Allow a	a guest to create a member account	, which will allow member		
	access	to the database of items to check ou	at.		
Actor:	Guest				
Pre-conditions:	Membe	er database must exist			
Post-conditions:	Guest k	pecomes a Member			
Frequency of Use:	Unknov	wn, potentially 100% of guests			
Flow of Events:		Actor Action	System Response		
	1.	Guest visits homepage and clicks	Accesses the create account		
		on "create account" button	page		
	2.	Guest enters first and last names,	System verifies that the email		
		a valid email-id, enters a	is valid, creates entry in the		
		password, then presses "ok"	member database containing		
			this information. System		
			issues an "account created"		
			message		
Variations:	Guest enters an invalid email-id. System issues error message then clears				
	the create account page. Guest omits email-id and/or password – error				
	message issued screen cleared.				
Notes & Issues:					
Developer Notes:					

Use Case ID:	UC-02	UC-02			
Use Case Name:	View In	ventory			
Description:		a guest or member to access the iter o scroll through and sort (by item n			
			•		
Actor:	All				
Pre-conditions:		se exists with ability to sort and scrol w Media page	I, Guest/Member has accessed		
Post-conditions:	Databa	se is scrolled and/or sorted			
Frequency of Use:	Arbitra	ry, depends on guest/member needs			
Flow of Events:	Actor Action System Response				
	1.	Uses scroll bar	Moves list up or down, depending on the direction user is moving scroll bar		
	2.	Sort by clicking one of the column headers (once for ascending order, twice for descending order)	Sorts the list using the selected column, either in ascending or descending order as indicated by the number of clicks.		

	3.	Double click item	Displays additional information
Variations:			
Notes & Issues: The check-in/out buttons will be grayed out who			when page is accessed from the
	home p		
Developer Notes:			

Use Case ID:	UC-03					
Use Case Name:	Check-	Check-out Media				
Description:	Membe	er may borrow an item if it is available	e (not already checked-out).			
Actor:	Membe	er				
Pre-conditions:	Membe	er is signed in and has accessed the V	iew Media page			
Post-conditions:		either checked-out to the member o member.	r has been placed on a waitlist			
Frequency of Use:	Arbitra	ry, estimated at least once per memb	per login.			
Flow of Events:		Actor Action	System Response			
	2.	Enters an item number into the check-out field, Clicks OK button  Selects yes	Checks to see if the item is available. If it is, the item is checked-out to the member. If not available, system issues message asking member if he wishes to add the item to the waitlist.  Item is added to waitlist and system issues confirmation			
			message.			
	3.	Selects no	System removes message			
Variations:	Issue error message if the item number is invalid.					
Notes & Issues:						
Developer Notes:						

Use Case ID:	UC-04		
Use Case Name:	Checkin Media		
Description:	Member returns an item which had been borrowed		
Actor:	Member		
Pre-conditions:	The item must already be checked-out, member is logged in and has accessed the view items page		
Post-conditions:	The item is available for check-out		
Frequency of Use:	Done for up to 100% of items borrowed, estimate many times daily		

Flow of Events:		Actor Action	System Response
	1.	Enters item number in the check-	System makes item available
		in field, presses OK	for check-out, updates item
			list, and removes it from the
			member's account. Issues a
			"check-in successful" message.
	2.		If item is on waitlist, system
			checks it out to the next user
			who requested the item.
	3.		If item is not on waitlist,
			system makes item available
			for general checkout
Variations:	Membe	ers enters an invalid item number - ei	ither already available in the
	database or the item does not exist. An appropriate error message is		
	displayed for each error and the check-in field is cleared.		
Notes & Issues:			
Developer Notes:			

Use Case ID:	UC-05					
Use Case Name:	Delete	Delete Account (Member)				
Description:	Membe	er may delete account as long as all it	ems have been checked-in			
Actor:	Membe	er				
Pre-conditions:	Must b	e on login page				
Post-conditions:	Accoun	t no longer exists				
Frequency of Use:						
Flow of Events:		Actor Action	System Response			
	1.	Enters email-id and password	Verifies information			
	2.	Clicks on Delete button	Verifies that no items are			
			checked-out, removes account			
			and issues confirmation email			
Variations:	Email-i	d and/or Password invalid – system is	ssues error message and clears			
	screen					
	Items checked out – system issues message instructing Member to return					
	items before account can be deleted					
Notes & Issues:						
Developer Notes:						

Use Case ID:	UC-06
Use Case Name:	Add media
Description:	A new media item can be added to the system.

Actor:	Admin	Admin			
Pre-conditions:	The me	edia item must not already exist.			
Post-conditions:	The new media item was added and is available for checkout.				
Frequency of Use:	Arbitra	Arbitrary, anytime an admin needs to add media. Est: weekly			
Flow of Events:		Actor Action	System Response		
	1.	Log in to Tardis-box	User credentials are verified		
	2.	Click on administrator panel	Administrative options are		
			displayed		
	3.	Click on media sub-panel	A list of media actions is		
			displayed		
	4.	Click on add media	The media entry form is		
			displayed		
	5.	Enter media details; click submit	The new media item is added		
Variations:					
Notes & Issues:					
Developer Notes:					

Use Case ID:	UC-07			
Use Case Name:	Delete media			
Description:	A medi	a item needs to be removed from the	e system.	
Actor:	Admin			
Pre-conditions:	The media item must exist.			
Post-conditions:	The media item deleted no longer exists in the system.			
Frequency of Use:	Arbitrary, anytime an admin needs to delete media. Est: weekly			
Flow of Events:		Actor Action	System Response	
	1.	Log into Tardis-box	User credentials are verified	
	2.	Click on administrator panel	Administrative options are	
			displayed	
	3.	Click on media sub-panel	A list of media actions is	
			displayed	
	4.	Click on delete media	A list of available media items	
			is displayed	
	5.	Select the media item; click delete	The media item is deleted	
Variations:				
Notes & Issues:				
Developer Notes:				

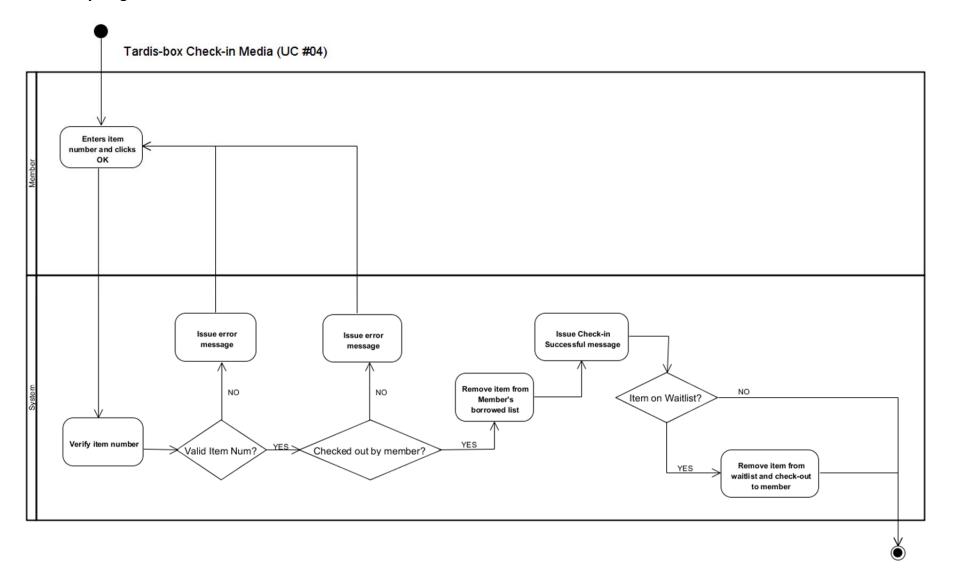

Use Case ID:	UC-08
--------------	-------

Use Case Name:	Login Member			
Description:	-			
Description.	A member may login to account			
	N.O			
Actor:	Membe	-·		
Pre-conditions:		er is on login page		
Post-conditions:	Membe	er is logged in		
Frequency of Use:				
Flow of Events:		Actor Action	System Response	
	1.	Enter email-id and password,	Verifies information, if account	
		clicks on Login button	is an admin account, the	
			system will go to the admin	
			page.	
			Members are logged in and	
			sent to view items page	
	2.	If waitlisted item is now		
			available, system displays	
			message indicating that the	
			item is available for check-out	
			and will be deleted from the	
			waitlist (checkout is in	
			`	
Modeline	F	 	different UC table)	
Variations:	Email-id and/or Password invalid – system issues error message and clears			
	screen			
Notes & Issues:				
Developer Notes:				

Use Case ID:	UC-09			
Use Case Name:	Delete account (Admin)			
Description:	Administrators can remove user accounts			
Actor:	Admin			
Pre-conditions:	The user that needs to be deleted exists.			
Post-conditions:	The deleted user no longer exists.			
Frequency of Use:	Arbitrary, anytime a user needs to be removed by an administrator. Est:			
	monthly.			
Flow of Events:		Actor Action	System Response	
	1.	Log in to Tardis-box	User credentials are verified	
	2.	Click on administrator panel	Administrative options are	
			displayed	
	3.	Click on user sub-panel	A list of users is displayed	
	4.	Select a user	The user is highlighted	
	5.	Click the remove icon	The user is removed

Notes & Issues:	
Developer Notes:	

# **Activity Diagram:**

#### **Data Storage:**

The data for the media distribution system will be stored in a relational database. Preliminarily we're planning to use MySQL. But we're designing our system to be agnostic to the specific relational database server.
